

“Opting Out” Does Not Affect Your Current Service

The restriction will remain in effect for the next two years unless and until you notify us otherwise. Restricting use of your CPNI will not affect the services that you currently have with any GoNetspeed service provider. Please note that restricting your CPNI will not eliminate all marketing contacts with you. You may still receive marketing contacts from GoNetspeed that are not based on your CPNI, such as mailings or bill stuffers sent to all customers. During a customer service call, FCC rules permit GoNetspeed to use your CPNI to notify you about additional products and services related to your existing service and, with your permission, to market other products and services during that call.

You Can Always Change Your Mind – Just Tell Us

Your CPNI instructions to GoNetspeed will remain in effect for two years unless and until you revoke or limit that approval or denial. (FCC regulations require us to send notices similar to this one to remind customers of their options every two years.) Regardless of whether you decide to “opt-out” or not, GoNetspeed is committed to continuing to provide you with the same high quality services that you have come to expect from us. If you have any questions or would like additional information regarding our use of CPNI, please [contact us](#).
